

Protect your

HARDWOOD FLOORING investment

Hardwood floors become dull and dirty over time just like carpet, which is professionally cleaned to extend the life. Basic® Coatings' Intensive Cleaning Process can breathe new life into your hardwood floors.

Professional hardwood maintenance can dramatically improve the appearance of wood floors and bring back their original luster. Basic Coatings® deep cleaning process removes the toughest dirt and residue, both safely and effectively. Commercial strength cleaning agents and innovative equipment lifts away buildup and rejuvenates floors for a fraction of the price it would cost to repair floors that are not professionally maintained.

Lewis Carpet and FloorCare has been serving the Bay Area Since 1987. Ask for your FREE ESTIMATE.

WHICH HARDWOOD FLOOR SOLUTION IS RIGHT FOR YOU?

We use the Dirt Dragon™ Floor Frep and Cleaning Machine and Basic® Coatings' commercial grade cleaners to successfully eliminate dirt, dust, oil, and other contaminants that weaken hardwood floors and can lead to costly repairs. Basic® Coatings' Intensive Cleaning Process doesn't just clean the surface like most systems and products; it extracts hidden dirt deep within the boards of hardwood floors. Improve your indoor air quality and circulation plus rejuvenate hardwood floors with the professional hardwood floor maintenance procedures that we provide.

INTENSIVE CLEANING

Aggressively cleans: dirt, grease, hair, dust, built-up residue and contaminants.

- Low Odor
- Pet and kid friendly
- No need to move furniture
- Quick drying times

CLEAN AND REFINISH

Aggressively cleans + refinishes the floor to a uniform sheen of gloss or satin.

- Low VOC for less harmful fumes
- Restores floors original luster
- Floors back in use the same day
- Available in satin or gloss
